Where international, state, and/or county boundaries coincide, the map shows the boundary symbol only for the highest level of those boundaries.

1 A “\*” following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

2 In 1990, a census-of-enclaves population of ships at sea was allocated to census tracts with a “99” prefix. An anchor symbol associated on the 1990 maps indicated a census-of-enclave tract. These maps show a very small MCD associated as a census tract with the census tract number shown near the area.

3 A “\*” following a block number indicates that the block number is repeated elsewhere in the map.
